

DRAFT LIST of cricket matches apparently attempted to video in Staffordshire – as at 04oct20

NB: I have not yet checked all this information – come back for updated version – there are problems with viewing some of these – I am still checking. Some trials were started inadvertently but are still shown in various places.

If you know of more, please email [colinp@a-b.co.uk](mailto:colinp@a-b.co.uk) (County Scorer Officer)

The PCS Pro recordings should also be available through Play-Cricket results scorecard and some visible on YouTube. Other systems include Pitchero.

**CAUTIONS:** Please follow ECB ACO and ICO Guidelines about displaying signs and obtaining permissions prior to recording. Please treat the output with care and do not abuse players or umpires on social media.

Outside Staffordshire, Pitchero is in use in Westmorland League and Beaconsfield, Shepshed, Guildford, Rawdon, Epsom, Alton, Wallasey and Bedford Clubs.

NB: If you download the video components into PC Pro, then it automatically switches it on for the next match, giving rise to false starts listed above!
